SKILLTECH TRAINING

**Creating a future
with training**

Our Objective

To facilitate and make available specific skills training for all sectors in Brunei Darussalam.

Skill Training includes

- Technical Skills or Hard Skills aimed at those requiring a certain level of competency to attain or perform a specific job.
- On The Job or Training at the Workplace aimed at those requiring skill training specific to their job description. This includes team building sessions and inter-relational workshops.
- Marketable Skills aimed at those desiring to attain skills to increase their chances of employment or to set up small businesses.

SKILLTECH Training essentially provides specifically designed courses to include

- Client's desired end result ie. what trainee(s) is/are able to do when they return to their workplace
- Good matching trainee / trainer / course content
- Practical applications where necessary
- Adapted to local context ie. Language, culture etc
- Adapted to trainee level
- Consider existing standards and working methods
